- Variable finish matte or glossy depending on parchment-paper or siliconized paper
- Very fast to weed

<input checked="" type="checkbox"/>	Due to the large variety of desktop inkjet printers and inks, we highly recommend to perform a test before launching a production. In case of application on white or light-colored 100% cotton clothing, it is recommended to perform a 40°C wash cycle of at least 60 minutes (not inside-out) before wearing the garment. *
	For best printing results with desktop ink-jet printers, we recommend Canon, HP and Brother. For other brands, please send a request by mail to info@siser.it .
